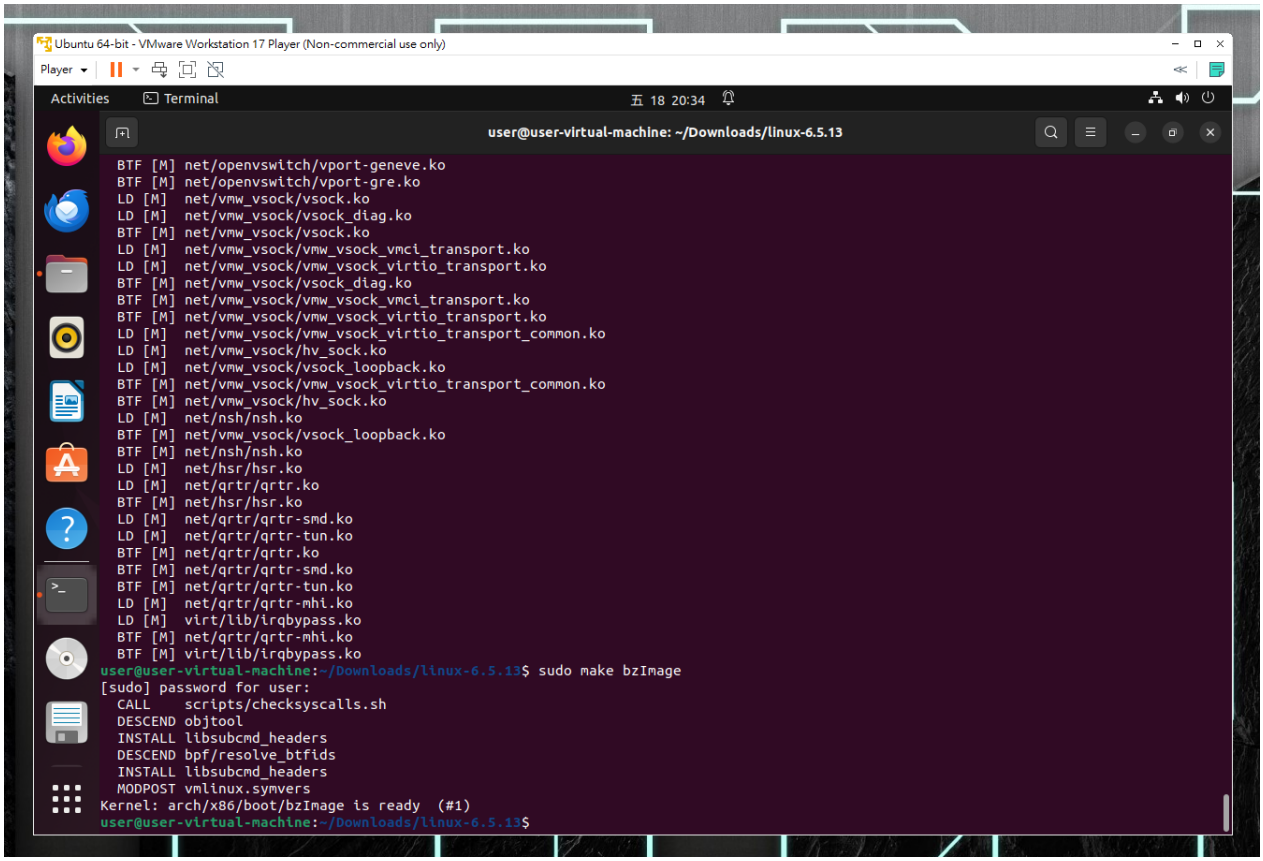
Embedded Operating System HW03 A111193

Part 1: Learn how to compile Linux Kernel

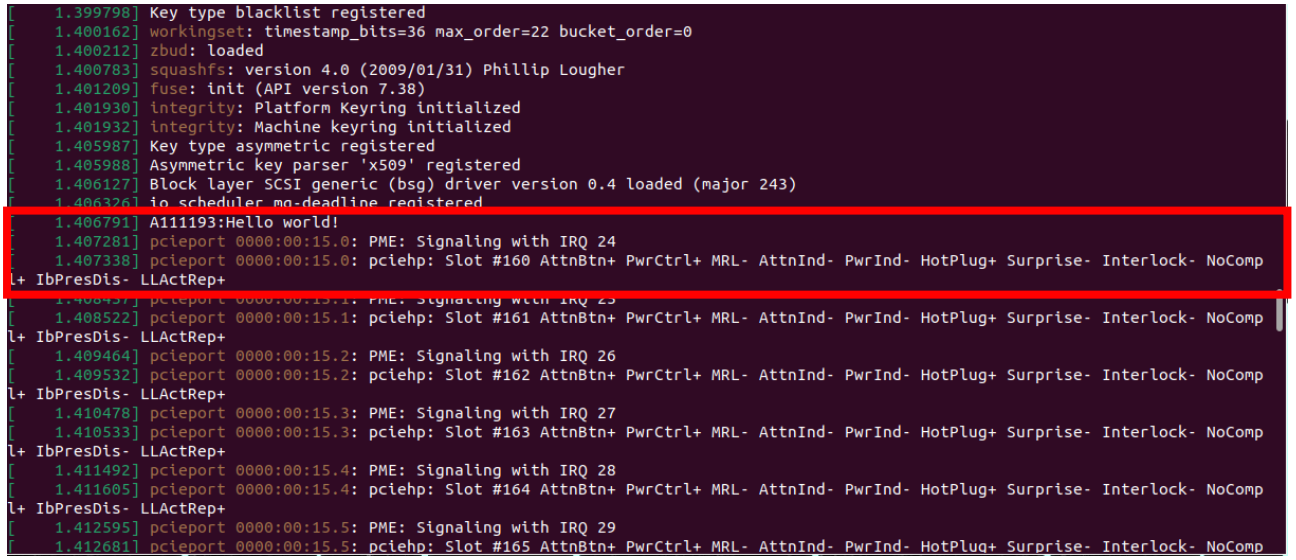
1. Screenshot the console message of your compiled Linux Kernel



執行完 make 之後出現 Kernel: arch/x86/boot/bzImage is ready 這段文字。

Part 2: Learn add your own module into Linux Kernel & Install Kernel

1. Screenshot the Hello World message with your Student ID from dmesg after your new Linux Kernel is installed.



框框中的是由 linux kernel source code 編譯後並且安裝後顯示的 hello_world 模組
